

## Nimbus – multipoint Bluetooth headset for your workplace and on the go

The freeVoice Nimbus offers a high sound quality, even in noisy office surroundings. The generous range of up to ten metres lets you make calls away from your workplace, thus offering maximum flexibility. The lightweight headset doesn't become uncomfortable, even when worn for longer periods. The microphone is positioned near the mouth and has a filter for ambient noise.

### Flexible Bluetooth connection

Thanks to the Bluetooth connection, the headset can be used not just in the office but also with any Bluetooth-compatible mobile device. When you leave the office, the Nimbus automatically connects to your mobile phone to ensure continued uncomplicated, practical use.

### Multipoint technology

The freeVoice Nimbus is a Bluetooth headset that can be connected simultaneously to a mobile phone and a PC softphone (via the optional Bluetooth adapter). The optional Bluetooth-USB adapter makes the Nimbus compatible with a wider range of PC-based softphones such as Aastra, Microsoft Lync, Cisco Softphone or Skype.

## Features and advantages

Features	Advantage
Bluetooth technology V2.1, CSR Blue Core 6	Bluetooth technology 2.1 (Class 2) ensures greater mobility – in the office and on the go. Take and end calls directly and comfortably from the headset*, control practical functions such as mute and volume. This saves time and increases productivity. Compatible with Bluetooth V2.0 and V1.2.
Noise-cancelling microphone	Effectively reduces background noises and improves comprehension.
Audio-shock protection	Protects the user's hearing by adjusting noise peaks and sudden loud noise down to a safe level (118 dB SPL).
Security encryption	Security encryption guarantees reliable protection against electronic eavesdropping and keeps all calls discrete and confidential.
Call-control keys	Simple and intuitive acceptance and termination of calls*, controls volume and mute.
Multi-use connectivity	Allows users to switch between calls from mobile and softphones (connects to up to eight devices and keeps two calls on hold in parallel).
Voice dialling	Make a call by speaking a name saved in the list of contacts.*
Range	The great range and connectivity gives users the freedom of more efficient multi-tasking and lets them make calls from a mobile or softphone independent of their telephone at a distance of up to 10 metres**.
Talk and standby time	Up to 13 hours talk time, up to 220 hours standby. Make calls throughout your entire working day without having to recharge your headset.
Battery	Rechargeable lithium-polymer battery.
Battery status display	Shows the battery status and tells you when the battery has to be recharged.
Wearing style	Headband, designed to be worn all day.
Weight	43 grams lightweight multipoint headset.
Warranty	2 years (battery 3 months).

\* Depending on the telephone

\*\*The range may vary depending on the ambient situation (wall thickness, building etc.)
